ADVISORY COMMITTEE TO THE PROGRAM COMMITTEE OF THE HEALTH PROFESSIONALS SERVICES PROGRAM

Legal Basis: M.S. 214.32.
 HEALTH PROFESSIONALS SERVICES PROGRAMS
 1380 ENERGY LANE, #202
 ST. PAUL, MN 55108
 Telephone: 651-643-3456

Appointing Authority: Program Committee to the Health Professionals Service Program
Compensation: None

Powers and Duties include: The Health Professionals Services Program is designed to monitor the treatment and continuing care of regulated health professionals who may be unable to practice with reasonable skill and safety, if their illness is not appropriately managed. The enabling legislation provides a non-disciplinary tool for health licensing boards to deal with impaired health professionals who recognize their illness and the need for continuing care and/or practice limitations. The committee will provide input to the Program Committee, program and board staff.

Member Restrictions include: An advisory committee is established to advise the program committee consisting of: (1) one member appointed by each of the following: the Minnesota Academy of Physician Assistants, the Minnesota Dental Association, the Minnesota Chiropractic Association, the Minnesota Licensed Practical Nurse Association, the Minnesota Medical Association, the Minnesota Nurses Association, and the Minnesota Podiatric Medicine Association; (2) one member appointed by each of the professional associations of the other professions regulated by a participating board not specified in clause (1); and (3) two public members, as defined by section 214.02. Members of the advisory committee shall be appointed for two years and members may be reappointed. Additional Information on how appointments are made: Biennial Notice of Appointments to Program Manager. Biennially on November 1st of odd numbered years, the program manager will notify each participating association of the need to make a new appointment or confirm the continuation of the current appointee by the coming January 15th. Each participating association must notify the program manager in writing on or before January 15th of the even numbered year of who their representative is and who their alternate is (if they use an alternate). HPSP does not offer members a per-diem (Payment) for participating on the Committee. Participation on the Committee is voluntary. "Public member" means a person who is not, or never was, a member of the profession or occupation being licensed or regulated or the spouse of any such person, or a person who does not have or has never had, a material financial interest in either the providing of the professional service being licensed or regulated or an activity directly related to the profession or occupation being licensed or regulated.

Summary of Activities include: See Powers and Duties. The Health Professionals Services Program is invested in obtaining public member participation on the Advisory Committee to the Program Committee. Public members must meet the definition described in Minn. Stat. 214.02. Ideally, public members are interested in enhancing public safety in health care by promoting early intervention, diagnosis, and treatment of health professionals with potentially impairing illnesses; and by providing monitoring services as an alternative to board discipline. HPSP will attempt to obtain public members by asking current Advisory Committee members for the names of potentially interested persons. Please note that Minn. Stat. 214.02 restricts many interested persons from being appointed as a public member.

Appointing Authority: Commissioners of Health, Pollution Control, and Agriculture; Speaker House; Senate Majority Leader
Compensation: Expenses

Powers and Duties include: Make recommendations to the Commissioner of Health and the legislature on priorities for environmental health tracking and biomonitoring. These include recommendations to study specific chronic diseases, environmental health exposures, chemicals, communities and geographical areas. Make recommendations on aspects of the design, implementation, and evaluation fo the environmental health tracking and biomonitoring system.

Member Restrictions include: The committee shall have 13 members; specifications and restrictions for each are detailed in M.S. 144.998. The commissioner of Health shall appoint 9 members, the commissioners of the Pollution Control Agency and the Department of Agriculture shall each appoint one (1) member, and the Speaker of the House and the Senate Majority Leader shall each appoint one (1) member. None of the members may be lobbyists registered under chapter 10A. As specified, a particular subset of 10 of the 13 members must have backgrounds or training in designing, implementing, and interpreting health tracking and biomonitoring studies or in related fields of science, including epidemiology, biostatistics, environmental health, alboratory sciences, occupational health, industrial hygiene, toxicology, and public health.

Summary of Activities include: During FY2013, the EHTB's biomonitoring program finished a second study of PFC exposure fromdrinking water in the East Metro. This study showed that, compared to the first study, PFC exposure levels in East Metro residents were declining. The EHTB Advisory Panel recommended a 3rd round of PFC monitoring in the same participants and in an expanded sample of current adults, including newcomers, in the East Metro area. Because efforts to reduce PFCs in drinking water betan in 2006, younger residents, and especially newcomers, are likely to have PFC levels that are more like the background levels seen in national surveys. The 2013 legislature has funded such a study to provide further assurance that actions taken to protect public health continue to be successful. In the first half of FY2013, EHTB began projects to complement the Mercury in Newborns in the Lake Superior Basin study (led by the Fish Consumption Advisory Program and the Public Health Laboratory; partially supported by the EHTB program). That study measured mercury in newborn blood spots from 1126 Minnesota babies and identified a potential public health problem: 10% of the Minnesota newborns tested had elevated mercury exposure. Elevated mercury exposure puts newborns at risk of learning difficulties later in life. In 2012, the EHTB Advisory Panel recommended that EHTB and the Public Health Laboratory work to validate newborn blood spots as a way to screen for mercury exposure in newborns. This work involved a cord blood to newborn blood spot comparison study in collaboration with Dr. Ruby Nguyen at the University of Minnesota. Part of the laboratory and study analysis is complete; and additional laboratory analysis and methods enhancement is in progress. The Panel also recommended in early FY2013 that EHTB conduct additional mercury biomonitoring to learn whether newborns in other regions of Minnesota are exposed to harmful levels of mercury before birth. Before birth and through infancy and childhood, children are highly sensitive to chemicals in their environment. The 2013 legislature appropriated funds that may enable EHTB to address some of this charge. The EHTB's tracking program, largely funded by the CDC National Environmental Public Health Tracking Network, collaborates with a network of 22 other states and New York City. Tracking gathers a wide range of data on Minnesota environmental hazards, chemical exposures, and health and makes the data available for everyone on a web-based data portal, MN Public Health Data Access. Minnesota citizens, elected officials, local public health officials, non-governmental organizations, academic researachers, and state disease and exposure prevention programs can access and use data on the portal. In FY2013, guided by the Advisory Panel's recommendations, Minnesota has tracked chronic obstructive pulmonary disease (COPD), obesity, smoking, population demographics, and environmental tobacco smoke exposure as unique state measures. Future data topics important to Minnesota include developmental disabilities (such as learning problems), PFCs, pesticides, mercury, and arsenic.

Member Restrictions include: The Council has a total of nineteen members. Thirteen of the members are appointed by the Governor, one in the field of higher education; one member each from the American Institute of Architects (AIA), the American Society of Interior Designers (ASID); and the American Society of Landscape Architects (ASLA); and a member, if available, of the family which donated the building, and eight public members, with four public members' terms being coterminous with the Governor who appoints them. The remaining six members shall consist of the Commissioner of Administration, a member of the Senate, a member of the House, the Governor's spouse or designee, the executive director of the Minnesota State Arts Board, and the director of the Minnesota Historical Society. The purpose of the renovations is to make the Residence multifunctional while respecting its architectural and historical integrity. The following are recent accomplishments. An updated master plan for the residence was completed in 1997 by MacDonald & Mack Architects. In 1996 the ADA (accessibility) improvements on the first floor and lower level were completed and the woodwork in the dining room, foyer, and surrounding hallways was refinished. The dining room was also refurbished with new drapes and the chairs repaired and reupholstered with the guidance of Nakashian-O'Neil, interior design consultant. A new ancillary storage facility was constructed and security improvements were made using a portion of the \$900,000 appropriated by the 1996 legislature. In 1997 the library was refurbished with new blinds and furniture, and some items were reupholstered. In 1998 new china and crystal glassware was purchased. The slate roof on the residence was replaced with new slate roof and improved kitchen ventilation in 1999.

Telephone: 651-582-8742

Appointing Authority: Governor, Senate Majority Leader, Senate Minority Leader, Speaker of the House, House Minority Leader

Member Restrictions include: The Task Force shall consist of no more than 15 members, appointed as follows: a) The Commissioner of the Minnesota Department of Education, the Commissioner of the Minnesota Department of Human Rights, and the Commissioner of the Minnesota Department of Public Safety; b) Four members from the Minnesota State Legislature, one appointed by the Senate Majority Leader, one appointed by the Senate Minority Leader, one appointed by the Speaker of the House, and one appointed by the House Minority Leader; c) The Governor will appoint up to eight additional members, who shall serve at the pleasure of the Governor, and may include individuals with backgrounds and expertise in health professions, pediatrics, psychology or psychiatry; with expertise or special knowledge of legal policy; with experience as advocates for students who have been subjected to bullying; and with teaching or school administration careers; d) At the Task Force's first meeting, its members will elect one of them to serve as their chair.

Summary of Activities include: The task force has held a number of listening sessions all across the state where the group heard from students and parents whose lives were directly affected by school bullying. The task force brought in a number of national experts who presented various aspects of bullying prevention from student discipline to cooperative support models. The group broke into subcommittees which tasked to create definitions for bullying and harassment. Other subcommittees focused on discipline, training and implementation, as well as data collection and accountability. The group examined existing model policies in order to discover their strong and weak points. The group examined bullying prevention laws and policies in other states and used that information to create a set of best practices. Work was not done in an education silo. The group considered non-educational aspects such as student mental health, human services, and human rights.

MN SENTENCING GUIDELINES COMMISSION

Legal Basis: M.S. 244.09.
 309 ADMINISTRATION BUILDING
 50 SHERBURNE AVE
 ST. PAUL, MN 55155
 Telephone: 6512960144

Appointing Authority: Governor and Chief Justice of the Supreme Court
Compensation: \$50 per diem (for citizen members) plus expenses

Powers and Duties include: The legislature established the Sentencing Guidelines Commission for the purpose of developing and maintaining rational and consistent sentencing standards which reduce sentencing disparity, increase proportionality in sanctions, and ensure more equitable and uniform sentencing for convicted felons. The following are the specifically stated goals of the sentencing guidelines system. 1) To promote public safety by recommending the harshest sanctions for violent offenders who pose the greatest danger to public safety and coordinating sentencing practices with correctional resources to assure that prison resources are available for these violent offenders. 2) To promote uniformity in sentencing so that offenders who are convicted of similar types of crimes and have similar types of criminal records are similarly sentenced. 3) To establish proportionality in sentencing by recommending the most severe sanctions for those offenders who are convicted of serious violent offenses even with no criminal record, those who have repeat violent criminal records, and those who have more extensive nonviolent criminal records. 4) To provide truth and certainty in sentencing by having the judge pronounce a fixed sentence that requires the offender to serve at least two thirds of the pronounced time as opposed to an indeterminate and symbolic sentence of zero to the statutory maximum sentence and a parole board that ultimately decides when to release an offender. 5) To coordinate sentencing practices with correctional resources by informing the legislature of the impact of the existing sentencing policy on correctional resources and the impact of any proposed changes to the sentencing system. To achieve the mission and goals stated above, the agency and commission evaluate sentencing policy and practices, modifies sentencing policy; determines the impact of policy on correctional resources; and provides training, implementation, and information services to the criminal justice community and the public. The criminal justice system is extremely dynamic and the commission must consider whether to make changes to the sentencing guidelines in order to continue to fulfill its mission. The commission presents recommendations to the legislature each year for changes to the sentencing guidelines.

Member Restrictions include: The eleven members include one judge of the Court of Appeals and one district court judge to be appointed by the Chief Justice of the Supreme Court; one public defender; one county attorney; one peace officer; one probation officer; three public members, one of whom must be a victim of a crime defined as a felony; and the Chief Justice of the Supreme Court and the Commissioner of Corrections or their designees. The term of any member appointed or reappointed by the Governor after the first Monday in January 1991 is coterminous with the Governor.

Summary of Activities include: The sentencing guidelines have been in effect since 1980. The guidelines have provided more uniform and proportional sentences for convicted felons. The Commission appropriately modifies the guidelines each year to accommodate new laws, address problems with the guidelines, or address other concerns about sentences. The research and monitoring functions of the agency have provided critical and important information to policy makers, including information on the impact of new laws and policies on correctional resources.

Meetings are held at: No set meeting location, however, the meetings have been routinely held at the Dept. of Corrections, central office.

STATEWIDE GEOSPATIAL ADVISORY COUNCIL

Legal Basis: M.S. 16B.99; SF-1270
 Carolyn Parnell, CIO; MN.IT
 200 Centennial Office Building
 658 Cedar St.
 ST PAUL, MN 55155
 Telephone: 651-201-2499

Appointing Authority: Chief Information Officer - OET/MN.IT Services
Compensation: None

Powers and Duties include: This council, authorized by legislation, advises the Minnesota Geospatial Information Office (MnGeo) about issues, policies, priorities, and investments needed to improve services statewide through the coordinated, affordable, reliable, and effective use of geospatial technology. This is a policy-oriented council that will be supplemented and supported by work teams and technical committees. The council must represent a cross-section of organizations that include counties, cities, universities, business, nonprofit organizations, federal and state agencies, tribal governments, and other stakeholder groups that benefit from geospatial technology. To ensure that council members represent the required cross-section of interests, applicants other than those in the At-Large category must provide a written endorsement from an organization that matches an identified stakeholder category from their executive officer, board director, or equivalent. Organizations may endorse more than one applicant and an applicant may apply as an endorsed candidate for more than a single category. In the event that qualified applications are not received for any of the target categories, the appointing authority reserves the right to substitute an At-Large representative for that category. Members are expected to facilitate two-way communication between their sector and the Council. In addition to the appointed members, the council will include the state chief geospatial information officer as a non-voting, ex-officio member. The term of office for appointed members will be for a term expiring on June 30, 2015. Meetings will be held four times a year with the first meeting likely to be in September in St. Paul. Please see our website at: <http://www.mngeo.state.mn.us/councils/statewide/index.html>.

Member Restrictions include: The twenty-three members must represent a cross section of organizations including counties, cities, universities, business, non-profit organizations, tribal government, federal agencies, and state agencies. No more than 20% of the members may be employees of a State agency. All appointed members will be voting members.

Summary of Activities include: The Council meets regularly to discuss policy and provide recommendations related to the use and management of geographic information resources in Minnesota. For specific activities, see the Council's website: www.mngeo.state.mn.us/councils/statewide/index.html.
