Entities that own, lease, or have any financial interest in agricultural land or land capable of being farmed must register with the MN Dept. of Agriculture's Corporate Farm Program.

Does this entity own, lease, or have any financial interest in agricultural land or land capable of being farmed?

Yes No

Shade Tree Financial, SBC, was incorporated on May 8, 2018, as a Specific Benefit Corporation with a Specific Public Benefit. Pursuant to Section 304A.101 of the Minnesota Public Benefit Corporation Act, the specific public benefit purposes of the Corporation as stated in its Articles of Incorporation are:

(a) Helping small businesses in rural communities obtain financing, with a focus on young entrepreneurs, beginning farmers and other demographics and industries that have historically struggled to obtain traditional bank financing; and

(b) Investing in and rehabilitating rural downtowns to attract small businesses and provide community spaces.

For the period covered by this report, from January 1, 2019 to December 31, 2019, the Corporation pursued and created its specific public benefit in the following ways:

The Corporation continued to develop relationships with community bankers to help identify potential entrepreneurs and formulate how best the Corporation could support them in obtaining financing. The Corporation reviewed several opportunities and committed to its second project, pledging cash collateral to assist a rural business in obtaining financing from a local lender. This financing is being used to renovate an existing building in rural MN and to purchase equipment to expand the business and allow it to move out of home.

The Corporation continues to review potential business plans and refine its criteria for selecting projects to back. Collateral continued to be deployed in 2019 for a 2018 project and that business is operating successfully.

The Board believes that the Corporation succeeded in achieving its goals for its specific public benefit as follows:

The Board met its goal of identifying at least one transaction prior to the end of the year. Ongoing discussions with the referral network the Corporation has built have proved helpful not only in identifying entrepreneurs and businesses that match the Corporation's mission, but also in identifying ways the Corporation can support these businesses without requiring an equity stake in these companies or adding debt to their balance sheets. Namely, the Corporation has and plans to continue pledging cash collateral as additional security for start-up business loans, to help entrepreneurs meet minimum collateral requirements or obtain lower interest rates.

The Board believes that the following circumstances (if any) hindered efforts to pursue or create the Corporation's specific public benefit during the period covered by this report:

The Board is satisfied with the Corporation's progress. The Board believes that the best way for the Corporation to achieve its specific public benefit is to ensure its own sustainability. To that end, the Board determined that the Corporation should continue to focus on one or two projects during this start-up phase to identify challenges or issues to be addressed before juggling multiple projects at one time.
